OBJECTIVE

Highly motivated and detail-oriented Full-Stack developer with a strong foundation in Java. Strong problem-solving skills, communication and ability to work in a team environment. Seeking a software development role where I can apply my technical expertise and continue to grow both my skills and contributions within an innovative team.

EDUCATION

- **Bharati Vidyapeeth Institute of Management** — *JUNE 2021 - JUNE 2024*, Kolhapur, INDIA
  Bachelor of Computer Application
  ∘ CGPA: 7.9/10.00

- **Sharad Science and Commerce College** — *JUNE 2021*, Ichalkaeanji, INDIA
  Higher Secondary Education
  ∘ Grade: 84.00%

- **Govindrao High School** — *JUNE 2019*, Ichalkaranji, INDIA
  Secondary Education
  ∘ percentage : 79.80/100

PROJECTS

- **Project 1: "Gym Management System"** — *FEB 2024 - MARCH 2024*
  Tools: SQL, JavaScript, JAVA, HTML AND CSS
  ∘ This software helps streamline gym operations by managing tasks such as tracking member details, employee information, equipment availability, membership plans for two types, and billing processes, among other essential features.
  ∘ **Created a user-friendly reservation module**, ensuring smooth room booking with real-time availability updates, enhancing customer satisfaction.
  ∘ **Implemented SQL for database management**, ensuring efficient storage and retrieval of client, employee, and room information, which improved data access speed by 30%.
  ∘ **Applied object-oriented design principles** to structure the system, enabling better maintainability and scalability for future feature additions.

- **Project 2: Supply Chain Management System** — *Feb 2025-MAR 2025*
  Tools: SQL, Java, Spring Boot
  ∘ ∘ Developed a backend system to streamline supplier-producer transactions, optimizing inventory and order management.
  ∘ Designed and implemented 20-25 REST APIs for secure and efficient data exchange between suppliers and producers.
  ∘ Integrated SQL database for real-time tracking of inventory, orders, and supplier details, improving data retrieval speed by 40%.
  ∘ Enhanced system security with authentication mechanisms, ensuring safe and authorized access to critical business data.
  ∘ Focused on scalability, enabling future integration with a React frontend for a full-stack solution.

SKILLS

- **Programming Languages:** JAVA
- **Web Technologies:** HTML, CSS, JavaScript
- **Database Systems:** SQL
- **Specialized Area:** Object Oriented Principals, DBMS, Core Java, DSA, Software Engineering
- **Platform Tools:** GITHUB, Eclipse IDE, Visual Studio Code, SQL plus
- **Core Competencies:** Software Development Life Cycle, Agile Methodologies

CERTIFICATIONS

- **JAVA Certification by udemy** JAVA Certification by udemy- link — *March 2025*
